Virtual Private Network User Policy

Purpose

The purpose of this policy is to provide guidelines for connecting internal servers hosted in UPSDC for E-office to minimize potential exposure of unauthorized users and remote Access of internal Servers from Internet over IPsec or SSL.

Scope

This policy applies to authorized users of government departments of UP intending to access internal servers of E-office for, Site and database access to Intranet applications.

Introduction

A virtual private network (VPN) has been traditionally used to connect remote users and internal servers hosted in UPSDC over Internet to access sensitive data. VPN creates a virtual "tunnel" connecting two endpoints by encrypting end-to-end communication and protecting the data from unauthorized access or interception. Departmental users, who require seamless access to Internal Server for regular work, can use IPsec VPN or Client based SSL VPN from any Internet Service Provider and access internal departmental applications & databases, do remote administration, monitoring and management of resources, which are otherwise not accessible from Internet.

VPN access will only be provided to E-office servers hosted in UPSDC and behind firewall. All forms, procedures and documents related to VPN can be collected from UPDESCO. UPDESCO will not be responsible of any activities done in the application / DB / Web Servers even if the connection is established through remote VPN. Department should take necessary precaution to secure their VPN User credentials.

VPN User Request

- VPN connection user is provided to authorize officers from state govt. departments/statutorybodies.
- VPN user can be created for all government department officers after due approval process.
- The Verification of the users shall be done by the authorized representative from theconcerned department.
- VPN user from respective department has to fill the request form, and get it signed byAdditional Chief Secretary/ Principal Secretary/ Special Secretary /Head of Department.
- Signed VPN request form has to submit to UPDESCO for further approval.

VPN User Approval

- After screening Source Host/IP, Destination Host/IP, Port, Service Type etc. VPN request will be finally approved by respective HOD and forwarded to UPSDC Nodal officer for further approval.
- This approved request form will be handed over to DCO for creation of New VPN User.
- VPN user and password will be handed over to HOD/Nominated officer of respectivedepartments personally only.
- It will be the responsibility of department Head / Nominated officer only that they have tochange password immediately.
- Department user has to ensure the adherence of password security do's and don'ts.

User Responsibility

- VPN User has to make sure that the client system used for VPN connection is regularlyupdated with latest OS patches and scanned with latest anti-virus software.
- Once connected to UPSDC, VPN user will have access to the authorized applications andDatabase servers only.
- Any change in the Intranet Web Applications/ hostname which are to be accessed throughSSL VPN, has to be intimated to the VPN administration.
- Don't share password of your computer & VPN User credentials to others (e.g., familymembers, friends and colleagues).
- User need to disconnect the VPN when it is no longer needed.
- It is the responsibility of each VPN user that they do not allow any other individual to use their VPN account. In case of otherwise user will be solely responsible.
- User has to ensure adherence of complex password policy.

Enforcement

The VPN user shall follow the policy.

Terms & Conditions:

1. The information provided by the User/Department should not be incorrect/false.
2. User shall be responsible for the contents / data uploaded to the servers through VPN connection. UPSDC is not responsible for the contents that are being accessed / upload by the user.
3. It is user's sole responsibility to use VPN account and shall be used only to accessingauthorized servers/ resources.
4. Password shall be reset by authorized user itself and need to keep the VPN user passwordconfidential.

5. Password should be changed on quarterly basis by the authorized user.
6. UPSDC is neither responsible nor accountable for misuse of the compromised VPN accounts or data changes. user will be solely responsible in such cases.
